Project Management:	Microsoft Azure
Version Control:	Git & GitHub
Operating Systems:	Mac OS & Windows 10/11
Other:	Adobe Lightroom, Adobe Photoshop, Logic Pro

WORK EXPERIENCE

Software Developer Intern | Prosper IT Consulting - Portland, OR   Sept 22 – Nov 22
- **Project One, Vertigo Theatre** Using ASP.NET MVC, Razor & Code-First approach under the direction of staff and with other interns, we developed a web application that would serve a local theatre. Its purpose would be to help manage various areas within a theatre, e.g., production, photos, members, etc. This was a two-week sprint that utilized Visual Studio 17, CRUD, Azure, Git and Discord to effectively collaborate and communicate.
- **Project Two** Using Django I was part of a team that would further the development of an existing web application. The page consisted of apps of various topics that would show CRUD operations. To further functionality a Rest API and web scraping was added to give the user quicker access to certain information that was in line with the app's topic. This was also a two-week sprint that utilized Azure and Git.

Electrician Mate, Fire Alarm System Installer & BMS Installer | Various companies - England   Jan 13 – Jun 22
- Installation of various systems within commercial buildings.
- Liaising with management to overcome drawing conflicts.
- Advising others on how to install or on placement of various mechanical support systems/devices.
- Managing a team of up to 5 people, alone and with a supervisor at times.

Optical Assistant | Vision Express – Brent Cross & Holborn, London   Sept 09 – Oct 12
- Quality checking finished spectacles
- Ordering of products from various suppliers best suited to a person's prescription.
- Providing high quality customer service.
